

1954.

WESTERN AUSTRALIA.

Quarterly Statistical Abstract

(The preliminary figures published in this Abstract are, as far as possible, revised every quarter. Those which appear in this issue consequently supersede any contained in previous issues.)

No. 353.

To 31st March, 1954.

Compiled from Official Records.

R. J. LITTLE
Government Statistician.

PERTH:

By Authority: WILLIAM H. WYATT, Government Printer.

1954.

Amended p30
1/5/61 mg

CONTENTS.

I. POPULATION AND VITAL STATISTICS—		Page
1. Population		5
2. Migration		5
3. Marriages, Births, and Deaths		6
II. FINANCE—		
4. State Revenue, detailed particulars		6
5. State Expenditure, detailed particulars		7-8
6. Net Loan Expenditure, detailed particulars		8
7. Summary of State Revenue		9
8. Summary of State Expenditure		9
9. Public Debt		9
10. Savings Banks		9
11. Bank Clearings		10
12. Cheque-paying Banks		10
13. Trading Banks		10
14. Real Estate Transactions		10
III. SHIPPING—		
15. Vessels entered and cleared according to Ports		11
16. Vessels entered and cleared		11
17. Tonnage of Cargo Discharged and Shipped		11
18. Tonnage of Cargo Discharged and Shipped according to Ports		12
IV. TRADE—		
19. Imports, Summary showing Origin		13
20. Exports, Summary showing Destination		13
21. Trade with Commonwealth States		13
22. Imports according to classes		14
23. Exports of Local Products		15
24. Wool Export from each Port		16
25. Exports, classified items		17-19
26. Exports, Ships' Stores		20
27. Imports, classified items		21-25
28. Imports and Exports at W.A. Ports		26
V. CUSTOMS AND EXCISE COLLECTIONS—		
29. Customs and Excise Collections at W.A. Ports		26
VI. LAND SETTLEMENT—		
30. Land Settlement		27
31. Principal Crown Lands Transactions		27
VII. PRODUCTION—		
32. Estimated Net Value of Production		27
VIII. MINING STATISTICS—		
33. Gold Production		28
34. Coal Production		28
IX. LIVE STOCK—		
35. Live Stock and Wool Clip		28
X. AGRICULTURE—		
36. Cropping, Clearing, etc.		29
37. Areas under Crops		29
38. Yield of Principal Crops		29
39. Average Yield of Principal Crops		29
XI. FACTORY STATISTICS—		
40. Principal Commodities Produced in Factories		30
41. Summary of Factories by Industrial Classes, 1951-52		31
42. Employment in Age Groups as at end of June, 1952		31

CONTENTS—continued.

XII. RETAIL PRICES AND HOUSE RENT—	Page
43. Average Retail Prices of Food and Groceries—Metropolitan Area	32
44. Retail Price Index Numbers of Food and Groceries, Clothing, Miscellaneous and Rent—Five Principal Towns	32
45. Retail Price Index Numbers of Food and Groceries—32 Towns	33
46. House Rents Index Numbers—Five Principal Towns	33
47. "C" Series Index Numbers—Five Principal Towns	33
XIII. WAGES—	
48. State Basic Wage	34
49. Minimum Rates of Wages payable under Awards and Agreements	35-42
50. Minimum Rates of Wages payable to Apprentices	42
XIV. METEOROLOGICAL STATISTICS—	
51. Notes on Weather Conditions during September Quarter 1953	43-44
52. Meteorological Observations	45

VI.—LAND SETTLEMENT.

No. 30.—Land Settlement as on the 31st December, 1953.

Particulars.	Area.	Area.
	acres.	acres.
I.—Absolutely Alienated :—		
Area sold by public auction or other forms of direct sale or otherwise alienated up to 31st December, 1953	24,137,676
II.—In Process of Alienation on 31st December, 1953 :—		
Midland Railway Concessions in process of alienation	54,800	
Free Homestead Farms	394,298	
Conditional Purchase	9,513,986	
Selections under the Agricultural Lands Purchase Act	343,031	
Grazing Land	2,322,702	
Town and Suburban Lots	3,462	
Crown Grants of Reserves	74,926	
		12,707,205
Total Area alienated or in process of alienation on 31st December, 1953	36,844,881
III.—Leases or Licenses in Force on 31st December, 1953 :—		
Issued by Lands Department :		
Pastoral Leases	198,024,098	
Special Leases	2,261,236	
Leases of Reserves	582,022	
Residential Lots	4,724	
Perpetual Leases	973,545	
Issued by Mines Department :		
Gold Mining Leases †	24,860	
Mineral Leases ‡	43,155	
Miners' Homestead Leases	32,841	
Issued by Forests Department :		
Timber Permits (a)	3,687,330	
		205,633,811
IV.—Area Neither Alienated, in Process of Alienation, nor Leased	382,110,108
Total Area of Western Australia	624,588,800

† Exclusive of 594 acres on "Private Property."

‡ Exclusive of 2,069 acres on "Private Property."

(a) Includes certain firewood permits amounting to 23,351 acres, and Permits for cutting Wandoo for tanning purposes, amounting to 139,384 acres, but excludes Permits and Licenses for cutting timber and firewood in Goldfields areas.

No. 31.—Principal Crown Lands Transactions.—Area of Crown Lands for which Applications have been approved by the Lands Department from 1949.

No. 46.—Housing (Rents of Four and Five-roomed Houses)—Five Principal Towns.

Variations in the Rents of four and five-roomed Houses in the five principal Western Australian towns are shown in the following table. The Index numbers are based on returns received from house agents for ordinary unfurnished dwellings, in a good state of repair with ordinary conveniences and occupying fair situations.

(Base—Weighted Average of Six Capital Cities for 1923-27 = 1,000.)

XIV.—METEOROLOGICAL STATISTICS.

(Supplied by courtesy of the Deputy Director, Meteorological Services.)

No. 51.—Notes on the Rainfall and General Weather Conditions in Western Australia during January, February and March, 1954.

January.

Pressure and Winds.—The usual summer type pressure pattern with coastal low pressure troughs and high pressure cells in the Bight and off the lower west coast persisted for the greater part of the month.

On the 14th one trough deepened and formed a low pressure system centred near Cape Leeuwin. It covered only a small area at first but moved rapidly south-eastward into the Bight and extended over a wide area.

There was a weak low pressure trough over the tropics during the first fortnight. A centre formed on the 21st and deepened rapidly but did not persist for long.

On the 26th another depression formed in the Kimberleys and moved out to sea in a south-westerly direction. It then dissipated and in three days' time a ridge of high pressure had extended over much of the tropics with a low pressure trough along the coast.

During the earlier part of the month winds in the sub-tropics were chiefly SE/NE with coastal sea breezes. In the remainder of the month winds were still easterly, but due to the deepening of the low pressure system in the tropics and the intensification of an anticyclone in the Bight, they were much stronger, reaching gale force in places on several occasions.

Westerly winds prevailed in the Kimberley divisions but in the remainder of the tropics, winds were chiefly easterlies veering south-west along the coast.

Rainfall.—The most outstanding feature of this month's rainfall has been the heavy totals recorded in the West Kimberleys during the latter half of the month. These falls have considerably eased the drought position in that area.

The North and East Kimberley divisions received good rains but totals were not as heavy as in the West Kimberley.

Throughout the remainder of the pastoral areas there were moderate falls during the last two weeks with some isolated heavy totals.

In the South-West division rains were mainly light and scattered, but some heavy falls occurred in the South Coastal sub-division on the 14th and 15th.

The highest total for the month was 1,273 points recorded at Broome.

Temperature.—After being above normal throughout the sub-tropics during the first half of the month, temperatures decreased generally during the second half. In the last five days only three stations reported temperatures exceeding 100 degrees.

The tropics experienced cooler conditions from the 25th onwards when temperatures were with a few exceptions, below normal. The highest in the State, 118 degrees, was recorded at Geraldton aerodrome on the 9th, and the lowest, 38 degrees, at Donnybrook on the 26th.

Metropolitan.

Perth experienced a very warm period of five days, 6th to 10th, when the minimum temperature averaged over 70 degrees and the maximum, 97 degrees. In the remainder of the month, temperatures were about normal. The highest 102·1 degrees (17·5 degrees above normal) was registered on the 10th and the lowest 53·8 degrees (9·3 degrees below normal) on the 26th.

There were five wet days on which a total of 50 points of rain fell, January normal being 31 points.

The highest wind, 48 m.p.h. from the E.S.E. on the 26th, was recorded during a period of easterly gales.

February.

Pressure and Wind.—This month the normal summer type pressure systems prevailed over the State with anticyclones centred in the Bight and off the west coast, and a low pressure trough over the tropics and down the west coast.

With this pressure pattern NE/SE winds prevailed over most of the State. Occasionally the low pressure trough along the lower west coast would move eastwards through the sub-tropics and cause winds to be SE/SW for a short period.

In the Kimberleys, winds were mainly NW/SW throughout the month. On the 16th a severe local thunderstorm caused gusts up to 59 m.p.h. at Broome.

Temperature.—Above average temperatures were recorded almost throughout the State during February, the Eucla division being the only one to escape prolonged spells of hot weather.

The highest for the month was 115 degrees at Onslow on the 17th, and the lowest 39 degrees at Bridgetown on the 9th.

Rainfall.—Only one station in the entire State, Wooramel, where 73 points were recorded, exceeded its February normal.

Of the remaining stations, those in the Kimberleys recorded moderate falls during the first week and a few light to moderate falls during the remainder of the month. In the rest of the tropics a few light to moderate falls were recorded, chiefly on February 1st. Further south in the sub-tropics, falls were generally scattered and less than 20 points.

The highest daily total was 181 points at Wyndham on the 1st, and Kalumburu with 533 points recorded the highest monthly total.

Metropolitan.—February this year was warmer than usual with maximum temperatures above normal on 19 days. The highest reading, 103·8 degrees, 18·6 degrees above normal, was recorded on the 16th and the lowest 56·9 degrees, 6·6 degrees below normal, on the 9th.

A thunderstorm caused vivid display of lightning on the 22nd of February, 23 points of rain being recorded at 9 a.m. on the 23rd. This was the only rainfall during the month.

The highest wind gust was 39 m.p.h. from the East on the 18th.

March.

Pressure.—During the first two weeks, anticyclones moved in an easterly direction south of the State and low pressure troughs developed southwards along the west coast of the sub-tropics. As each high pressure cell passed eastwards, the troughs would move behind them through the sub-tropics.

During the remainder of March, the high pressure cells followed a more northerly track and autumnal conditions became more apparent. The low pressure troughs on the west coast were not as marked as earlier in the month nor did any one of them remain stationary for as long as previously. The high pressure systems were not strong and frequently broke into small cells.

For almost the entire month a weak low pressure trough extended over the tropics. Although low pressure centres formed in the troughs, none intensified to any marked extent.

Winds.—After being NE/SE over most of the sub-tropics during the first two weeks of the month, the winds veered SE/SW in the southern districts for the remainder of the month.

In the tropics and northern sub-tropics they were easterly except in the coastal areas and the North Kimberleys, where they were SW/NW throughout March.

Rainfall.—A few light falls, none greater than three points, were recorded in the South Coastal sub-division during the first 15 days. No rain was recorded in the remainder of the sub-tropics in this period. In the ensuing weeks, heavier and more widespread falls were reported from stations in the South-West division but none fell in the remaining divisions of the sub-tropics.

There were scattered light to moderate falls as the result of thunderstorms in the Kimberley divisions. The heaviest fall of the month, 296 points, was recorded at Broome on the 19th.

There were light to moderate falls in the Fortescue and De Grey divisions during the first two weeks.

No station in the State recorded above normal rainfall and none in the Gascoynes, and the South-Eastern divisions aggregated more than 10 points.

Temperature.—In the first half of the month, temperatures were above average throughout the sub-tropics but following a cool change on the 16th, fell and remained below normal in the South-West division from this date.

The cooler weather lasted only a week in the Gascoynes and the South-Eastern divisions and high temperatures were reported in these areas during the last week.

Weather in the tropics continued to be hot, with most stations recording over 95 degrees each day.

The highest temperature, 114 degrees, was recorded at Onslow on the 9th and 112 degrees was recorded on many other days at different places.

The lowest for the month, 36 degrees, was reported from Bridgetown on the 22nd.

Metropolitan.—Weather in Perth was fine throughout most of the month. There were two wet days and a total of seven points was recorded. There were several fogs and although two were heavy, services were not impeded.

The highest temperature 103·0 degrees, 21·2 degrees above average, was recorded on the 6th and the lowest 52·3 degrees, 9·1 degrees below normal, on the 22nd.

The strongest wind gust was 43 miles per hour from the SW on the 16th.
